### **Comox Firefighters donate Speed Signs!**

The Comox Firefighters Association have made another generous donation to their community. They have recently donated \$2,000.00 as partial costs for two new speed indicating signs installed near Brooklyn School in Comox.

Chief Gord Schreiner states: "I am so proud of our firefighters for their support of so many important projects in our community. These speed control signs have proven to reduce speeds in the areas they are used. Reducing speeds makes it safer for all of the road user in that area."

Funds for projects like this come from small surpluses from the Comox Fire Training Centre which is used by hundreds of visiting firefighters every year. Over the past few years the Comox firefighters have donated over one hundred thousand dollars back into their community including supporting the purchase of over thirty public use automatic external defibrillator (AED).
