Council adopts its Strategic Plan

Comox, BC – Council of the Town of Comox adopted its updated 2016 – 2018 Strategic Plan at its Regular meeting held January 17, 2018.

On an annual basis, Council holds an afternoon/evening workshop with senior staff to review and revise the existing Strategic Plan. This past November Council took the opportunity to review the status of initiatives detailed in the current plan, identify key priorities of Council for the final year of the Council term, and identified longer term initiatives to forward to the next Council for their consideration.

“Reviewing our strategic priorities provides Council with an opportunity to see what has been accomplished and gives Council the opportunity to focus our attention on other important priorities,” said Mayor Paul Ives. “It guides the allocation of Council and staff time, along with our financial resources and for 2018 we will have another busy year of projects ahead.”
