DEVELOPMENT VARIANCE PERMIT

For address: _____

- **If your development requires a variance to enable an addition or alteration to an existing single-family dwelling, typically only the items shown shaded in the checklist below are required.** For any other development, this comprehensive checklist will need to be customized by staff.
- Review the checklist with Planning staff who will customize the requirements to your specific proposal. All required items on the checklist must be satisfied in order to process the application.
- If your development requires rezoning it may be possible that a zoning bylaw regulation can be varied within the rezoning application process. Discuss this with staff.
- Check each required item on the list below confirming that it is included in the application package. A completed copy of this checklist must be submitted with the application form. (Unless a copy of an Appendix is specifically required to be submitted, it is not necessary to return the Appendices of this Application.)
- Incomplete applications and/or development plans that are not internally consistent will be returned and the application date will be revised to the date of a complete application. Substantially deficient applications will be charged a \$250 processing fee.
- This list indicates initial information required to open an application review file; further revisions to drawings or specialist reports or plans may be required.
- It is the Applicant's responsibility to be familiar with and knowledgeable of all applicable Town bylaw requirements and policies and to clearly represent how the application conforms to these requirements and policies in order for the application to be accepted.
- This information is a general guide only and is not regarded as the right to development approval if the process steps and submission requirements are followed.
- Land-use related bylaws can be viewed online at <http://comox.ca/modx/bylaws/>

Notes: Time limit for provision of additional information or resolution of Outstanding Items

- **If additional information has not been provided 90 days after requested**, the Town will notify Applicant that **the application has been deemed to have been abandoned**.
- If a bylaw in relation to the application has been given 3rd reading but not adopted or if a permit, flood plain exemption, strata conversion, modification or discharge of a covenant, or highway frontage exemption is conditionally issued, and either **the bylaw, permit, exemption, strata conversion or modification/discharge of a covenant are subject to completion of outstanding items which have not been resolved within 90 days** (unless otherwise specified), **the application is deemed to have been abandoned**.
- Application fees for abandoned applications will not be refunded.
- If applicant requires more than 90 days to provide the additional information or resolve the outstanding items, **an extension may be requested in accordance with Section 14(5) of Comox Planning Procedures Bylaw 1780**.
- **In addition, suspension of application processing may be requested in writing by an Applicant for a period of up to 240 days provided** that Council has not yet given first reading to any bylaws in relation to the application and no decision has been made regarding Development Permit or Development Variance Permit issuance, an Application to modify or discharge a *Land Title Act* Section 219 Covenant, or an Application for a highway frontage exemption . Only one processing suspension will be granted.

Information Available to the Public - The personal information collected on this form is collected for the purpose of an operating program or activity of the Town of Comox as authorized by the *Freedom of Information and Protection of Privacy Act*. All information collected with this form shall be disclosed to the public upon request. Copies of drawings submitted with this application become part of the local government's records and therefore subject to the *Freedom of Information and Protection of Privacy Act*. If you have any questions about the collection and use of this information, please contact Shelly Russwurm, Deputy Corporate Administrator, Town of Comox, 1809 Beaufort Avenue, Comox, V9M 1R9 (ph 250-339-2202) russwurm@comox.ca

Archaeological Implications – Pursuant to the *BC Heritage Conservation Act*, it is the owner/developer's responsibility to comply with provincial statutes regarding archaeological sites. The Town of Comox has not assumed responsibility for the implementation, monitoring or administration of Provincial Ministry objectives, policies, regulations, or programs.

Contaminated Sites – While the Town has opted out of participating in the Provincial Contaminated Sites program, this does not release the Applicant from fully complying with the Province of British Columbia's requirements.

Application Declaration

As the Applicant coordinating the submission of this application, I confirm that I and/or members of our professional team providing components of this application are aware of our responsibility to be knowledgeable of all relevant Town of Comox bylaws and policies and I confirm that this application is, to the best of my/our ability, in conformance with Town of Comox bylaws and policies, and, where any part of the application is not in conformance, a rationale for the proposed non-conformance is contained in the submitted written Application Rationale.

I have attached to this application the required plans, drawings, specifications, and reports for the proposed development in accordance with the application checklist.

I accept responsibility for:

- processing delays caused by incorrect or insufficient submission materials or information;
- anticipating the implications of the BC Building Code and I will be responsible for any processing delays caused by the need to comply with the BC Building Code; and
- ensuring compliance with the *Town of Comox Subdivision and Development Servicing Bylaw No. 1261* at the time of Building Permit application. (**Note:** By early 2016, the Town will have a revised Development Servicing bylaw, an Erosion and Sedimentation Control bylaw; and a Storm Water Control bylaw. All developments will need to comply with these new bylaws once they are in effect.)

Summary of Comox Flood Plain Designation Bylaw No. 1474¹

Unless an exemption from *Town of Comox Flood Plain Designation Bylaw No. 1474* has been granted by the Town, Bylaw No. 1474 requires that:

- *the underside of any floor system, or the top of any pad supporting any space or room, including a manufactured home, that is used for*
 - *dwelling purposes,*
 - *business, or*
 - *the storage of goods which are susceptible to damage by floodwater must be above the applicable flood level specified by the bylaw;*
- *furnaces, major electrical switchgear, or other fixed equipment susceptible to damage by floodwater are prohibited below the flood level; and*
- *any landfill required to support a floor system or pad must not extend within any applicable flood setback specified by the bylaw.*

Exceptions:

The following developments are automatically exempt from both flood level and flood setback requirements:

- renovations to an existing building or structure not involving an addition;
- loading and unloading facilities associated with water-oriented industry provided that the main electrical switchgear is located above the flood level specified in Bylaw No. 1474 section 6; and
- vehicle parking areas which are not located in a building, structure or portion thereof used as a garage or carport; and

the following developments are only automatically exempt from the flood level requirements:

- that portion of a building or structure used as a carport, garage, porch or entrance foyer;
- greenhouses as accessory buildings to a dwelling;
- farm buildings, other than dwelling units and closed-sided livestock housing;
- closed sided livestock housing if the underside of any floor system or the top of any concrete floor slab is not lower than 1.0 metres above the Natural Ground Elevation; and
- underground vehicle parking areas if unobstructed means of pedestrian ingress and egress are provided above the designated flood level and signs legible to drivers entering the parking area are posted at all points of entry notifying users that the underground parking area is not protected from inundation by floodwaters.

Natural Boundary: means the visible high water mark as established by a British Columbia Land Surveyor of any lake, river, stream, or other body of water where the presence and action of the water are so common and usual and so long continued in all ordinary years as to mark upon the soil of the bed of the body of water a character distinct from that of its banks, in vegetation as well as in the nature of the soil itself. The survey establishes the location on plan and the geodetic elevation of the Natural Boundary.

LANDSCAPE BUDGET REQUIREMENTS

Submission of a Landscape Budget is a requirement of certain development applications.

The Landscape Budget is reviewed in conjunction with the development's Landscape Plan and detailed Plant List.

The attached template for a Landscape Budget shows a number of categories of information which may apply to a subject property depending on what is proposed to be built in a landscape scheme.

The completed budget must contain all of the required information. This may be done as one budget for everything or as separate budgets using this budget format for site preparation, plant material, soil amendment, irrigation, and on-site lighting.

Please attach all supporting documentation including quotes from contractors and subcontractors. Use the budget template below. (An MSWord or Excel version of this template is available from Planning staff.)
