

PUBLIC NOTICE

2019 ANNUAL WATER MAIN FLUSHING

(March 25 – May 10, 2019)

The Town of Comox Public Works Department wishes to notify residents and businesses that we will be undertaking the annual flushing of water mains. This program is necessary to ensure good water quality.

This program will commence on Monday, March 25th and will be completed by Friday, May 10, 2019. All work will take place from Monday to Friday between 8:30 am and 4:00 pm.

This program may result in temporary but harmless slight discolouration of the water and although it does not present a hazard to your health, it is advised that you reserve some drinking water for that time. Should discolouration occur, running a cold water tap for a period of time will remove any discolouration. Where practical, residents should avoid washing laundry during operational hours as to do so could result in discolouration of clothes.

Motorist are asked to slow down and use caution when approaching flushing crews.

The Town of Comox would like to thank users for their patience and cooperation during this program. Should you have any questions or concerns please contact the Public Works Department at 250-339-5410.

Thank you.
